Large Double Flowering Peonies

Once planted they will last a lifetime with little care. They grow from one to three feet high, producing magnificent blooms, which sometimes almost surpass the beauty of the Rose. Another point which is largely in their favor is the fact that the plants are never attacked by either insects, animal or fungal diseases. Peonies will succeed in most any kind of soil, but give best results when planted in a deep rich and somewhat moist loam.

AGIDA. Medium sized, double, midseason; the most near scarlet of any red Peony. Price, 75 cents.

FRAGRANS. Sulfurino-red with slight silvery reflex. Compact, bomb type, strong vigorous grower, medium size, late. Price, 75 cents.

FESTIVA MAXIMA. About the largest and undoubtedly the most popular Peony of them all. High built flowers borne on long stiff stems, the purest white, inner petals slightly tipped carmine. Early. Price, 75 cents.

EDULIS SUPERBA. Very soft salmon-pink, changing to blush white. Blooms habitually in broad clusters and makes a fine filler. Price, 75 cents.

MADAME CALOT. This is the freest flowering of all Peonies. It is known in Holland as the Glory of Rosklopd. Pure white, shaded salmon; large convex flowers, fine buds, extra for cut flowers. Price, 75 cents.

JULES CALOT. Color distinct from all others, bright carmine-pink, with crimson tips of silvery-white. Immense, loose, rounded heads borne in profusion. Price, 75 cents each.

OLD FASHIONED GARDEN PEONIES

ROSEA. Deep cerise-pink. Price, 50 cents each.
ALBA. Pure white; large flower. Price, 50 cents each.
RUBRA. Deep crimson; early. Price, 50 cents each.
One each of the Old-Fashioned Peonies, red, white and pink, for $1.25.

VESTAL’S ROSES FOR FALL PLANTING—The advantages of planting Roses in the fall are many. Then the ground is rich with fertility, and the plants will at once take root and become established. The following spring they will have an earlier start and will produce an abundance of choice flowers throughout the season, while the growth of spring planted stock will be checked and it will require some time to become rooted. Let us urge you to plant Roses this fall. They will reward you next summer by blooming freely. We are glad, therefore, to make this special offer of extra large plants, all properly pruned and ready for delivery as soon as the wood is thoroughly ripened, which is usually early in November. These varieties have been selected with the utmost care, and we firmly believe they are the finest and best rose bushes that can be had anywhere. They may be planted any time before the ground freezes hard; give the soil about the roots a light protection over winter.

A SPLENDID OPPORTUNITY TO GET CHOICE ROSES OF YOUR OWN SELECTION AT ONE-HALF PRICE. MANY ARE NEW AND RARE.

SPECIAL NOTICE—Plants can only be sent by express, purchaser paying transportation charges.

PRICES: For fall planting we offer only our largest sized two-year-old plants. 60 Cents Each; $6.00 Per Dosen.

**PONSETTIA PULCHERRIMA.** This is the plant which produces the large clusters of red leaves or flowers which are seen in all the flower shows across the country. 

**PRIMROSES**

These plants will bloom continually if put in 4- or 6-inch pots in good soil.

**FRINGED CHINESE PRIMROSE (Primula Elegans Filamentosa).** Well worth blooming in the sunny window, or in any ordinary window, even where there is not much light or heat. 

**OVERELOWERING PRIMROSE (Primula Obconica Grandiflora).** Rarely-mentioned cultivar of lovely flowers the whole season. They come in many different shades. Mixed colors only. 

**BABY PRIMROSE (Primula Micra).** Very dainty, blooms in lovely rows of tiny pink flowers for eight or ten months. 

**CINERARIA**

Very handsome winter and spring blooming plants, flowering from January to May. Each plant is composed of tufts of blue and yellow flowers in a fragrant color, each plant is composed of yellow flowers. 

**COLEUS—CHRISTMAS GEM**

This has broad leaves that often measure eight inches across, beautifully marked with wide green and bright green. The best foliage plant we know. Stock in fine condition. Price, 25 cents each; 50 cents each.

**NEW GIANT RAINBOW COLEUS CHRISTMAS QUEEN**

It is difficult to describe this beautiful new large leaf Coleus. Its coloring is gorgeous and ranges from dark velvety maroon through shades of bronze, green, pink and yellow, the combinations of color varying in each plant. Must be seen to be fully appreciated. Price, 50 cents each.

**VOILETS**

**PRINCESS OF WALES.** New single voilet. This variety is far ahead of any other single violet known. Of Hardy, vigorous growth, the plants are wonderfully free flowering. Price, 10 cents each; 25 cents each.

**CYCLAMEN**

There is no more sensational plant for greenhouse or parlor culture than the Cyclamen. It grows readily, blooms freely and remains a long time in flower. The soil should be equal parts of leaf mold, peat and loam, covered with light peat shading which is put in. The plants should be watered freely and kept bright from the time the leaves are full. Keep in a cool, light place, wathering lightly until growth begins. The water should be used on the plant of light and air. On the approach of bloom, firmen the soil, and keep them near the light. Extra fine plants, 25 cents each.

Giant White Narcissus

Giant White Narcissus, the latest blooming Narcissus, coming late into bloom for the Christmas holidays. Grows with absolute certainty and produces in lovely clusters immense numbers of delicately scented pure white flowers whose fragrance is the equal of Orange Blossom. Sells in every way.

GROW IT IN WATER. It succeeds best when grown in water. Place sand or gravel in the bottom of the receptacles in which it is to be grown, firmly embedding them in the sand or gravel. Be sure to water well before putting them in their receptacles in the illustration, and you will not have to wait until the lovely clusters of large white flowers will appear. It is very important that the flowers be kept in the water. The introduction of this idiosyncrasy is due to the accidental discovery of a furnished garden that contained the flowers, and we think all our friends who are fortunate enough to try it will consider it so fragrant, immem- sely desirable, and that it will grow in water. These flowers are imported direct from France; are large, round and solid; sure to grow and bloom. Price, postpaid, by mail,

DWARF DOUBLE SACRED LILY (Double Narcissus). Grown in the same manner as Chinese Sacred Lily. Produce abundance of double white flowers, which can be easily brought into bloom for Christmas. Price, 10 cents each; $1.20 per dozen.

Giant White Narcissus

Price narcissus, One Double Yellow Daffodil.

Plants Twin Narcissus, Soleil Dor (Sun of Gold), Giant Golden Scented Sacred Lily.

Scented Sacred Lily

Scented Sacred Lily, a most delightful plant, large, golden yellow flowers: hardy, thrive in any window or garden, bloom quickly and freely in soil, sand or put in water. Beautiful and very fragrant. Large bulbs. Price, 20 cents each; $1.10 per dozen.

Sweet Scented Jonquils

If all bulbous plants, the Daffodils will stand more vicissitude of soil and climatic conditions than any other class. All they need is a good start to make themselves naturally and gloriously "at home" in any location. Their delicate scented flowers are very welcome in the winter pots and boxes; but out-doors, in garden, lawn, or flower bed they find their greatest perfection.

Some of the Narcissus bloom as early as the Crocus, making the garden look very cheery and bright with their gold color in Spring. The flowers assume many forms and present many charming combinations of white, gold, primrose orange, sulphur and pure yellow. Some are quite fragrant; all are very hardy, with the exception of the clustered Polichus varieties, which though extensively grown for cut flowers are not for outdoor planting.

ALL YELLOW TRUMPET NARCISUS EMPORER. One of the finest Daffodils in cultivation; extra, extra. Grows in every way. Price, 15 cents each; $1.10 per dozen.

EMPEROR. A magnificent large variety, bold and stately. A favorite of the nurserymen, and one of the best. Price, 15 cents each; $1.25 per dozen.

GRANDIS. A large, broad white perianth, the petals of which are wide and overlapping. A magnificent flower of great substance and grand for cutting. Price, 10 cents each; $1.00 per dozen.

VICTORIA. A bi-color famous for its large and durable flowers, which stand badly. Price, 10 cents each; $1.00 per dozen.

LILY OF THE VALLEY. The original early flowering Polichus so popular for winter forcing as well as for naturalizing. Price, 10 cents each; $1.10 per dozen.

LILY CANDIDUS ANNUNCIO. or MADONNA LILY. This is one of the most popular of garden Lilies. The flowers are pure white and very fragrant, borne on long stems. To succeed with it, it should be planted early in the autumn, so that it can make some growth before frost; give the bulbs a tight210760 db1d8186e573a9587b6f2593519a30d56a187b89694e6d63f69d7f1a1c85a82a5 readable text here.
HycintHs are among the most popular and satisfactory hardy flower bulbs grown. Their waxy-like bell-formed flowers, borne in boxwood clusters, are a matchless beauty and also delightfully fragrant. The colors, shades and tints are wonderfully varied, from pure white through bluish, pink, rose, etc., to deepest red and from daintiest pastel through blues to black purple, from cream through yellow to carmine and rosy apricot, etc. Hyacinths succeed with every one, and may be had in flower throughout the winter, grown either in pots or soil, or glasses of water, or in bowls of prepared fibre, while for gardens or bedding on the lawn they are particularly effective when in flower during the spring.

THE LARGEST FLOWERING NEW VARIETIES

BISMARK. A grand new variety producing a large spike well formed with large bulbs of clear light blue shaded with violet in center of petals; very fragrant. Price, 90 cents each. (at page)

ESCANTHEA. Large pure "baby blue" bells, compactly filling the tall handsome well-rounded spires of which it is almost impossible to get two or more strong, well-filled spires. Colors closely with General Vetter. This makes the largest spikes of any Hyacinth, it grows pyramid in form with large bells of lovely bluish white.

BRITISH QUEEN. A splendid new variety bearing very large pure white bells on a tall graceful spike. Very early.

SPARKLE CORAL. Porcelain Indigo with a white throat, splendid tall spike and large bells.

JACINTO. A most promising Hyacinth is known in New York under the name of "The Big Pink," the spike being very tall and well filled with large, lovely, exquisitely shaped flowers of warm rose-pink.

LA VICTORIE. A grand red variety, splendid oval spike quite well filled and topped with large bright red-red bells; good border and front runner.

LORD BALFOUR. Enormously large, broad spikes of big wavy bells; notable attractive and unique; claret-purple edged reddish mauve.

VERY BLUE. One of all Hyacinths, being almost black; the best and most brilliant of its color; fine large mass.

PERLE BLANCO. Splendid large spike of very large bells, center marked with violet tints of ultra-marine blue.

QUEEN OF WHITE. Large wax bells of parent which tall rank of perfect flowers and large bells. Price, 15 cents each. 

QUEEN WILLIAMINA. A very pleasing shade of pink, having large, well-formed, white flowers, with very attractive shade of warm rose-pink.

HOW TO GROW BEAUTIFUL HYACINTHS

IN THE OPEN GROUND—Plants in the fall, 6 inches apart each way and 2 to 4 inches deep. Give them slight protection over winter, and in the spring, after the flowers are gone, the bulbs should be removed in time to set your summer flowering plants.

IN POTS OR WINDOW BOXES—Plant the bulb in the pot so that its crown just shows, then set away in a cool, dark place for six weeks or two months for rooting and development. After this, bring gradually to the light, heat and air; give plenty of water.

VESTAL'S BEAUTIFUL DECORATIVE Ferns

THE BOSTON FERN
For hanging baskets or single specimens in pots or baskets it is superb. We know of no other plant that withstands ill treatment better, or thrives so splendidly under good care. It does equally well in sun or shade outdoors during summer and presents an imposing appearance indoors during winter. It forms an immense number of graceful drooping fronds varying in length from two to five feet, which arch over like plumes in every direction, and which are always of a fresh, healthy and beautiful green color. Price, strong plants, 15 cents each; larger, 30 cents each; extra large, 50 cents each.

SMITHII FERN. A greatly improved Ostrich Plume Fern, with extremely finely cut fronds, could be rightfully described as Baby Breath Fern. It is of compact form, fronds on wiry stems that do not break down in center. This variety will have a wonderful sale. Prices, 35c, 50c, 75c and $1.00 each.

VERONA FERN. Makes a good plant in any size, much finer frond than any crested Fern except Smithii. We consider it one of the best of the newer varieties. Prices, 35c, 50c, 75c and $1.00 each.

NORWOOD FERN. A dwarf compact form of Whitmanii, carrying its fronds still and erect on wiry stems that do not break down. Makes ideal specimens. Called by some Ronet and Fluffy Ruffles Fern. Very showy. Prices, 35c, 50c, 75c and $1.00 each.

Nephrolepis Whitmanii
(The Improved Tarrytown Fern)
This is an aristocrat among all the Nephrolepis, and when well grown is unquestionably the finest of the lot. In this we have unquestionably the most valuable fern of the Ostrich Plume type yet introduced. Not only is it of dwarfer and more compact habit than the Elegantissima, but the leaves being more deeply divided, gives the plant a much more graceful appearance, while another important point in favor of the Whitmanii is the fact that not a single frond has ever reverted to the common Boston Fern. We offer strong young plants, 15 cents each; 4 for 50 cents. Strong, handsome four-inch pot plants, 35 cents each.

THESE beautiful plants for home decoration vie with the Palms for first place in the esteem of flower lovers. They are finely cut and oddly shaped. Ferns give a graceful effect produced by few other plants and they do exceedingly well in the parlor and conservatory. The Nephrolepis family, of which the well-known Boston is a member, has furnished us many beautiful species of late years. We recommend all the varieties listed.

COMPACT SWORD FERN
(Nephrolepis Cordata Compacta)
Fitting companion for the Boston; dwarfer, more erect in growth, much darker shade of green, very gracefully arched. Very desirable as a house plant. Price, 15 cents each; larger, 30 cents each.

TEDDY JUNIOR
This magnificent Fern has never before been offered for sale by any florist or catalogue firm. It is a sport from the now famous Roosevelt Fern, and while its habits of growth are to produce a shorter frond, it retains all the valuable characteristics of the parent plant. The fronds are broad and beautifully tapered from base to tip; they droop just enough to make a shapely, graceful plant, permitting it to finish with a fine full center and perfect symmetrical spread. Price, 20 cents each; larger, 50 cents each.

NEW FERN JOHN WANAMAKER
(“The Wanamaker Boston Fern”)
Originated from Scholzii, with longer, narrower, gracefully drooping fronds. It is not so compact in growth as Scholzii, and therefore does not decay in the center, and is a durable house Fern. It is a rapid grower, making an abundance of fronds, and is quite distinct from any other Fern. Price, nice plants, 30 cents each; larger plants, 50 cents each.

ASPARAGUS FERNS
ASPARAGUS Sprengeri (Emerald Feather). A strong, vigorous plant, very easily grown and requires little care. 15 cents and 25 cents each, postpaid; extra sizes, 35 cents and 50 cents each, by express.

ASPARAGUS Plumosus (Climbing Lace Fern). The fine feathery foliage is always bright and green and the fronds retain their freshness for weeks when cut. 15 cents and 25 cents each, postpaid; extra sizes, 35 cents and 50 cents each, by express.

“RED SNAPPER” PLANT FOOD
This is a highly concentrated plant food made up scientifically to cover the needs of plant life, both out-of-doors and in window-garden and conservatory. It has been on the market some time; its advertisement has been nation-wide, and is probably well known to most of our customers. Easily applied, pleasant to use; and we are pleased to recommend it. By far the richest, most nutritious and yet harmless organic fertilizer for house plants and small fruits, climbing vines and shrubbery ever placed on the market. It is made from specially prepared and finely ground fish bone meal and nitrogenous carrilage mixed with pulverized tobacco snuff. Put up in a concentrated form.
